

# John Zdrubeky Races His Way To Victory In Harry Alter's Totaline Tournament Racing Series.

Naperville's newly crowned Champion made it a really close race. First of all it was close because the margin of victory was only 5 laps in the 50-lap contest that had its share of flipped cars, restarts, incredible crashes, and white knuckled racing. But it was literally "very close" for John Zdrubeky as his business office was ironically located a mere 80 yards away – in the same business park – as the April 20th Harry Alter race.

A host of customers came out in force to check out the second of 14 races that Harry Alter is conducting all across the Chicagoland area. "Rain or Shine, we drop the green flag at high noon and cheer on every participant to do their best and take home the monster trophy", stated Wes Reder – Creative Director for Harry Alter's Corporate office. "The racing is becoming much more competitive and there seems to be a few ringers showing up who even have actual race car experience! I'm delighted that so many customers, with various degrees of racing experience, are enjoying the race events, I can't wait to see what happens when the engines get going during the Grand Finale Go-Kart races toward the end of the year" continued Reder.

John Zdrubeky and the racing partner of his choice will represent Harry Alter's Naperville location in the Grand Finale later this year, but John stated that he definitely plans to make sure that he's out in front and that the race is not close at all!

If you missed it, you can still join in on the fun by registering for the coveted "Pole Position" at [www.Harry-Alter.com](http://www.Harry-Alter.com) and visiting any one of the 14 Harry Alter Stores for a catered lunch and a Totaline Tournament Racing event. The year-long Race schedule is also available on the website showing the date, time, and location for each race.

Store Manager Cindy Barbic's customers brought Family & Friends to enjoy the Food and Festivities!
